

# GET THE MESSAGE: ACT YOUR AGE

At 16 Alex considers himself a veteran of the moped scene - Greg is 31 years old and 'not a scooter type of person'. But when their paths collide they end up looking at their riding through each other's eyes.

Greg and Alex hit the road for very different reasons, but in *Act Your Age* we see that there is more than one way to go about getting the riding experience that they need.

For one, the roads are a serious business, and much tougher than he thought. For the other its just a big laugh. So will it all end in tears?

Sit back and enjoy the ride!
